## GAME PROCESSING

### GUIDELINES:

- Deer should be de-boned. If not, we charge you a \$30 de-boning fee.
- We accept fresh or frozen deer meat throughout the year.
- Game processing orders are for a minimum of 20 lbs. per product.
- Deer meat is individually weighed and tagged with your name, telephone, etc.
- The percentage of pork added to your processing depends on your personal preference. We have found that a mixture of half game, half pork makes a better product.
- You are notified when your processing order is complete. Any order unclaimed within 30 days of that notification becomes the property of Wenzel Lonestar Meat Company.
